

OrangeShield Motor Covers

What will a motor cover do for you?

The time is now.

The Results are Real! A major West Virginia Prep Plant cut its motor failure rate by 60% in just the first year after installing OrangeShield .

The Choice is Yours.

Keeping your motors clean is only the start of the benefits you get from **OrangeShield Motor Covers**. Surface airflow increases 140%. Drive-end bearing temperatures and winding temperatures are reduced. Bearings last longer. You'll spend less time fixing motors and more time processing coal.
